

AIRPORT FUN DAY!

SATURDAY, MARCH 28, 2020

Come out to your local airport for a day of aviation family fun activities and grab a hot dog lunch while you are there!

Join your local chapter's Experimental Aircraft Association (EAA) as you meet our pilots and learn about their airplanes and their special features.

Explore virtual flight with our new Flight Simulator and learn all about aviation related opportunities for your future, whether as a career, hobby, or both... and how EAA can help!

If you are between 8-17 yrs. old, find out how you can register for a free airplane ride with us as a "Young Eagle" on May 2, 2020!

A child-size airplane will be available for the young ones.

Representatives will be present from William Jessup University to share Aviation opportunities and learn about their AFROTC program. We will also have representatives from Associated Modelers of Sacramento (AMOS), our local RC Airplane organization, to tell you how you can learn to fly RC airplanes for free!

For more information, please contact us at: eaal541@gmail.com.
